GreenTouch

1332C 13.3" LCD highlight touch display

GreenTouch's 1332C LCD highlight touch display is a touch solution designed and developed for automated information systems, games and entertainment, as well as light industry automation control, making GreenTouch's touch display product line more comprehensive. The 1332C high brightness touch display is based on the concept of "designed for touch" and possesses the professionalism and reliability of the proven GreenTouch. The precise small outer frame design completely seals the touch screen, making it dustproof, anti fouling, and waterproof, and making it easier for customers to install the 1332C on the cabinet. This model is designed and built by GreenTouch and has a long lifecycle that can meet long-term needs. Even if a new generation of LCD panel is replaced in the future, there is no need to make external changes.

The 1332C offers a variety of industry-leading GreenTouch touch technologies and offers projected capacitive touch technology. This model has global regulatory agency certification, as well as GreenTouch's warranty and after-sales service. The 1332C LCD highlight touch display provides a cost-effective touch solution for system integrators and value-added distributors (VARs).
Features

· Optional touch technologies include: PCAP

· Compact and easy to integrate with mounting from sides or top and bottom; also a VESA mount option

· Worldwide agency approvals

· One year standard warranty
